

# COMPLETION OVERSHOT

Our Completion Overshot represents a significant technological advancement for the company. This innovative equipment features a breakthrough design capable of swallowing and securing existing in-hole "old" tubing, specifically tubing stump.

To enhance operational efficiency and adaptability, the Completion Overshot is optionally available with various bottom guide, self-alignment and wiper ring features. These additional functionalities further optimize performance in diverse well conditions.

The Completion Overshot can incorporate advanced seal technology to ensure reliable pressure containment that follows body connection up to 5,000 psi, effectively mitigating the risk of leaks and maintaining well integrity.

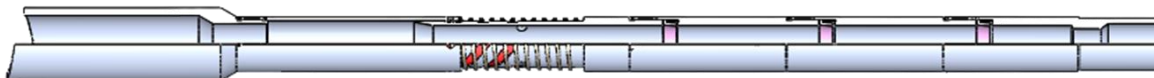

## Features & Benefits

- Advanced design
- Able to add optional various type of seal with different pressure rating
- Good choice for workover scope
- Optional features include bottom guide type, self-align feature and wiper ring

## Technical Specifications

<b>Size Available (in)</b>	3.50	4.50	5.50	7.00
<b>Maximum OD (in)</b>	8.50	8.50	8.30	8.90
<b>Minimum ID (in)</b>	2.953	3.926	4.786	6.18
<b>Connection Top x Bottom</b>	Any premium connection			
<b>Body Material Selection</b>	Any material require (Subject to stock availability)			
<b>Seal Material Selection (if applicable)</b>	Any seal require (Subject to stock availability)			
<b>Bottom Guide</b>	Lip Guide/ Half Mule Shoe/ Full Scoophead			
<b>Tubing stump size to be swallowed (in)</b>	3.50	4.50	5.50	7.00
<b>Maximum Temperature Rating (°F)</b>	40 to 325	40 to 325	40 to 325	40 to 325

*All products listed are those that are currently available; however, other sizes/materials/pressure ratings are available upon request.*
